

Adapter – Pete Jackson to Enderle Barrel Valve

The Pete Jackson vertical injector bodies make a good injector if you convert the barrel valve to the Enderle K type valve. The older PJ barrel valve does not have some of the features the K valve does and you cannot purchase parts for the PJ barrel valves today.

This adapter provides a bolt up conversion on the PJ vertical injector to the Enderle K valve.

Part Number 35090-93991 List Price \$ 145.00+ Racer Decal Discount \$125.00+
