

Hat Adapter PSI Hat to ROOTS Blower Complete Kit PN 35020-28759 List Price \$ 560.00+ RDD \$ 520.00+

There are two parts to this adapter kit. One is the top part that connects to the PSI Hat assembly and the other is the lower part that provides the mounting for the nozzles. This is necessary as with a PSI blower the nozzles mount in the top of the blower housing so the PSI hat has no nozzle provisions.

This Adapter Kit was made to provide the lowest possible mounting for use in many applications but working very nicely in a Funny Car application where the driver must look over the top of the injector, if possible.

**Top Part PSI hat adapter to bolt PSI hat to ROOTS blower 8 top opening
PN 35020-28750**

Bottom Part (Nozzle Mounts)

12mm 8 Top hat spacer- drilled and tapped for nozzles PN 35020-28770
